Kirkland, WA, 98033

PROFILE

Entrepreneurial software engineer with seven years of business consulting experience. Skilled in building customer facing websites and applications. Well-versed in both the technical and business side of the software industry.

EXPERIENCE

SENIOR SOFTWARE ENGINEER – *September 2022 - Present*

The MX Group / Seattle, WA

- Deliver enterprise-level applications and websites built with Node, TypeScript, React, and various database solutions.
- Pitched, architected, and led implementation of a company-wide design system for our Fortune 500 client, Cummins.
- Mentor junior engineers, optimize workflows, and support infrastructure.

FRONT END SOFTWARE ENGINEER – *June 2020 - September 2022*

HMS Marketing / Seattle, WA

- Built React/TypeScript application that manages over \$150 million per month in new construction home sales.
- Parse REST API data generated from over 4,000 yearly real estate transactions into custom dashboards.
- Oversee deployment pipeline across Microsoft Azure, GitHub, and NetSuite.

BUSINESS TECHNOLOGY CONSULTANT – *July 2013 – June 2020*

Ryan Evans Consulting / Seattle, WA

- Consulted clients on overhauling sales systems, technology needs, and business strategies.
- Led multiple clients through successful expansions into new countries.
- Integrated tools including Jira, GitHub, Zendesk, Salesforce, HubSpot, Jest, and more, streamlining technology systems across organizations.

DIRECTOR – *February 2016 – September 2017*

X-Team / Melbourne, VIC

- Sold \$100k+ digital projects to new and existing clients.
 - Led expansion of 100+ team of software engineers into Australian market.
 - Scaled technology teams of Fortune 500's by placing software development staff on contract assignments.
-
